Gentlemen:

SUBJECT: REPORT NO. 50-302/84-33

Thank you for your supplemental response of June 6, 1985, to our letter of May 3, 1985. Our letter expressed concerns with your previous response to Violation 84-33-01, regarding the reduction of waste gas decay tank hydrogen and oxygen concentrations to within the Technical Specification limits. We have evaluated your supplemental response and found that it meets the requirements of 10 CFR 2.201. We will examine the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,
