Dear Mr. Tripp;

This letter and application for a material license is in response to your recent rejection/inquiry of our previous application date 4/22/85.

It was brought to our attention that items (10) "Radiation Safety Program" and (11) "Waste Management" were not completed throughly. We have, since then, also changed item 4, 7 and 13.

Subsequently, I have throughly completed a new application for a material license. This new application with all required information is attached.

We are anxiously awaiting an approval of this application in order to recieve our gas chromatograph. If you have any questions, please do not hesitate to call me at 201-344-4004.

Very truly yours,

S. & W. WASTE. INC.
