SUBJECT: Proposed Amendment to License No. 32-23067-01 to Include
Sr-90 Check Sources.

Dear Mr. Guinn:

Following up our telephone conversation on May 22, 1985, I am submitting a request to amend ATI License No. 32-23067-01 to include Sr-90 check sources, not to exceed 1 μ Ci per check source. These check sources are used with several different radiation monitors that ATI plans to use for other projects.

If you have any questions concerning this matter, please contact me at (704) 376-5752.

Sincerely,

Jimmy Glenn
