International Atomic Energy Agency (IAEA)
Safeguards Implementation at ANO-2

Gentlemen:

On May 3, 1985, two IAEA installed seals were removed from the missile shield structure provided in containment. This was done in order to perform additional work on the inadequate core cooling (ICC) monitors.

We provided advance notice to Mr. Bob Lee of your staff of this activity by telephone on May 3, 1985.

Very truly yours,

J. Ted Enos
Manager, Licensing
