TO THOSE ON ATTACHED LIST

The UMTRA Project Office will be conducting a Value Analysis Workshop focusing on improving the remedial action process at the Grand Junction site and the Grand Junction vicinity properties process. I firmly believe that Value Analysis holds the potential for significant cost and process improvements.

You have been selected to participate as a member of the teams. Participants were carefully chosen, based on functional expertise from key areas. The workshop will consist of lectures and demonstrations of the use of Value Analysis techniques including cost and cycle analysis and function evaluation followed by sequential workshops where you will apply the techniques to the Grand Junction site and vicinity properties.

An introductory meeting will be held on June 27, 1985, at 8:00 a.m. - 12:00 p.m. in Albuquerque. The Workshop will be held at the Grand Junction Hilton in two sessions during the weeks of July 8 and July 29, 1985. Each session will begin at 8:30 a.m. on Monday morning and conclude at noon on Friday. Please make your own room reservations by calling the Hilton Inn at (303) 241-8888. The Workshop will be facilitated by Value Analysis consultants from Westinghouse Productivity and Quality Center. You may direct questions to Russ Landis, Westinghouse, (412) 778-5320, or Kathy Carlson, DOE-AL UMTRA Project Office, at (505) 844-3941.

This is a real opportunity for you personally to broaden your experience and to make a significant contribution to the success of the UMTRA Project. I know you will give the program your enthusiastic cooperation and support.

Sincerely,

John G. Themelis, Project Manager
