Document Control Desk

Dear Mr. Smith,

Thank you for your telephone call of 2/9/93 reminding us of our responsibility to respond to NRC Bulletin 92-02 (Theratronics Teletherapy Units). We apologize for not returning the requested information in a timely manner which was an oversight on our part.

The Co-60 teletherapy unit which is in our possession under NRC License # 37-01421-04 is an AECL Theratron Model 780-2. The unit was installed in 1977.

I have reviewed NRC Bulletin 92-02 and the model number of our unit does not appear on your list of affected units which require a full report. Based on the make and model number of our unit, it is my understanding that no further information is required.

If I can be of any further assistance, please do not hesitate to call.

Sincerely yours,

CATHERINE M. ANDERKO
