Re: Response to NRCB 92-02 for NRC license #13-02752-08

Gentlemen:

This correspondence is in response to NRC Bulletin 92-02 regarding the teletherapy units currently in our possession. We do not possess any of the teletherapy units identified on page 2 of the bulletin. The teletherapy units currently authorized under our license are:

1. Picker Corporation - Model 6296 (C9M/80), and
2. Thomson CGR Medical Corporation - Model Alcyon II.

We apologize for the delay in our response. Unfortunately, we assumed that no response was required due to the fact that we did not possess one of the listed teletherapy units. Should you have any additional questions, please do not hesitate to contact this office. Thank you.

Sincerely,

Mack L. Richard, M.S.
Radiation Safety Officer
