Gentlemen:

SUBJECT: DOCKET NOS. 50-338 AND 50-339

This is in response to your letter dated December 14, 1992, regarding clarifications to Revision 28 to the North Anna Nuclear Security Plan.

Most of the changes contained in this Revision are in response to the Safety System Outage Modification Inspection (SSOMI), Report No. 50-339/89-200. They deal with vital, security controlled, and secondary security controlled areas, which have been the topic of on-going discussion between Virginia Electric and Power Company and the Nuclear Regulatory Commission's Office of Nuclear Reactor Regulation (NRR). Accordingly, this Revision, in its entirety, has been referred to Headquarters for review. You will be advised of NRR's deliberations on this matter by separate correspondence.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,
