U.S. NUCLEAR REGULATORY COMMISSION
FINDING OF NO SIGNIFICANT IMPACT
ISSUANCE OF SPECIAL NUCLEAR MATERIAL LICENSE NO. SNM 1938
COMMONWEALTH EDISON COMPANY
WILL COUNTY, ILLINOIS
DOCKET NO. 70-3000

PUBLIC DOCUMENT ROOM
85 MAY 14 8 51
TIME REQUESTED

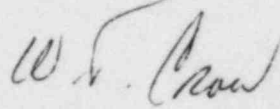

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of Special Nuclear Material License No. SNM-1938 to permit the receipt, possession, inspection, and storage of unirradiated nuclear fuel assemblies at the Braidwood Nuclear Generating Station, Unit 1, in Will County, Illinois. The unirradiated fuel assemblies will be for eventual use in the Braidwood Nuclear Generating Station, Unit 1, once its operating license is issued.

The Commission's Division of Fuel Cycle and Material Safety has prepared an Environmental Assessment related to the issuance of Special Nuclear Material License No. SNM-1938. On the basis of this Assessment, the Commission has concluded that the environmental impact created by the proposed licensing action would not be significant and does not warrant the preparation of an Environmental Impact Statement. Accordingly, it has been determined that a Finding of No Significant Impact is appropriate. The Environmental Assessment is available for public inspection and copying at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. Copies of the Environmental Assessment may be obtained by calling (301) 427-4510 or by writing to the Uranium Fuel
