Dear Mr. Schnell:

This refers to the routine safety inspection conducted by Mr. B. L. Bartlett and Ms. D. R. Calhoun of this office from December 1, 1992 through January 31, 1993, of activities at Callaway Plant, Unit 1, authorized by NRC Operating License NPF-30, and to the discussion of our findings with Mr. W. R. Campbell and others of your staff at the conclusion of the inspection.

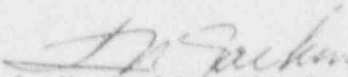

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection certain of your activities appeared to be in violation of NRC requirements. However, as described in the enclosed inspection report you identified this violation. Therefore, the violation will not be subject to enforcement action because your efforts in identifying and correcting the violations meet the criteria specified in Section VII.B. of the "General Statement of Policy and Procedures for NRC Enforcement Actions," (Enforcement Policy, 10 CFR Part 2, Appendix C).

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,
