Dear Mr. Selin,

We are writing to urge that the NRC hold a public hearing on the issue of the storage casks at the Palisades Nuclear Plant near Covert, Michigan. This particular type of storage cask is, as yet, untested, and is near the lake and in a populated area. Are you willing to use the inhabitants of this area as guinea pigs without getting their input on the matter? We urgently ask that you give this problem more consideration before putting spent fuel in these casks.

Very truly yours
