Gentlemen:

Enclosed is Amendment No. 10 to renew License No. 20-07896-01. You should review this license for correctness and to assure that any changes in procedures required by the conditions are implemented.

Please note the quantities of strontium-90 and bismuth-210 that you have requested are exempt quantities and not subject to licensing by NRC. In addition, from the telephone conversation between Mr. J. Davis of my staff and Dr. Davidson, it is our understanding that there was an incorrect maximum amount of carbon-14 requested. The correct amount should be 2 millicuries instead of 200 millicuries.

We wish you continued success with your licensed program.

Sincerely,

Original Signed By:
John D. Kinneman
