Subject: NRC INSPECTION AND NOTICE OF VIOLATION

Dear Mr. Serle:

This refers to the inspection conducted on August 9, 1996 at the Park Medical Center. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. At the conclusion of the inspection, the findings were discussed with members of your staff. This also refers to the September 10, 1996 telephone call to you by George Parker of my staff to discuss the inspection findings.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, independent measurements and observations of activities in progress.

Based on the results of this inspection, the NRC has determined that a violation of NRC requirements occurred. The violation is cited in the enclosed Notice of Violation (Notice). A written response is required.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, the enclosure, and your response to this letter will be placed in the NRC Public Document Room (PDR). To the extent possible, your response should not include any personnel privacy, proprietary, or safeguards information so that it can be placed in the PDR without redaction.

Sincerely,
