USNRC

Dear Secretary of the NRC,

'93 FEB -1 A11:30

I request an extension of 30 days to the 30 day comment period you are giving to the 2nd proposed rule on the VSC-24 cash as in the Federal Register Jan 21.

OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

This Fed. Register did not come to our local libraries until late yesterday afternoon — Jan 25, and will be put out at our local NRC document area today, I was told when I called yesterday — it had just arrived.

Most people don't read the Fed. Reg. daily, of course, so by the time we notify others, a few more days pass, and by the time we get ordered copies, more days pass. Most of us have careers and families — not much time to look over more than 300 pages of material that you have just put out. We

realize you are under tremendous pressure by Consumers to get this cash going. You have already let them build them all on the pad and given them permission to give you a 90 day notice of use before the

DSID

Cash is even certified. Now you only give the public a few days to review this material and get comments to you once again. You give the utility exemptions for every thing and try to rush things through. Many asked for an extension of the 60 day time period last time. Thirty days — which really amounts to less than 20 — is not long enough to get the material and review it. This is done in our spare time with no pay. It is not our job. Time is all we ask for.

Sincerely,  
Fawn  
Shillinglaw
