INTERIM FIRE AND DAMAGE TEAM LEADERS

Shift Supervisors: Refer to Alternate Emergency Director

FIRE AND DAMAGE TEAM

The Fire and Damage Team consists of the interim team members, the on-shift P.O.'s, APO's, and A.O.'s. The team is augmented by other personnel who are on-site or called in. The augmenting forces are trained in fire fighting but not necessarily in the emergency plan. These augmenting forces operate under the direction of the team members and leaders who have had emergency plan training. The augmenting forces are:

1. Staff engineers and test engineers
2. Maintenance personnel
3. Construction personnel
4. Janitors and Storeroom personnel
5. Delta-Cardiff Volunteer Fire Department

Most personnel in Groups 1 through 4 receive PECO fire training; Group 5 personnel are trained in fire fighting by the Delta-Cardiff Volunteer Fire Company.

PERSONNEL SAFETY TEAM

The personnel safety team is made up of on-shift P.O.'s, A.P.O.'s, and A.O.'s who are trained in the Emergency Plan Procedures. The team is augmented by other site personnel such as plant janitors, test engineers, health physics technicians, and others who are not necessarily trained in the Emergency Plan but will assist under the direction of the team leaders and members.

SEARCH AND RESCUE GROUP/FIRST AID GROUP

The search and rescue group is organized by the Personnel Safety Team Leader at the direction of the Emergency Director. It will consist of personnel who are available and who are knowledgeable of the plant layout and recognize conditions which could result from the existing emergency condition. The purpose of this team is to search plant areas quickly to locate and rescue victims. Personnel who know plant layout and are available make up this team are from the following groups:

Shift Operators	Construction
Test Engineers	H.P. Technicians
Staff Engineers	Susquehanna Test Branch
Maintenance	Field Engineers
	Plant Janitors

INTERIM SECURITY TEAM LEADER AND TEAM MEMBERS

The security team is made up of the Guard Force. The sergeant of the guard is the Interim Team Leader. The guard force is trained in security and necessary Emergency Plan Procedures.

RE-ENTRY TEAM

The Re-Entry Team will be made up of available personnel. It is anticipated that personnel with some radiological controls experience or training would be used. Personnel from the following groups are available:

Shift Personnel	HP Technicians
Staff Engineer	Some Maintenance Personnel
Test Engineers	Some Construction Personnel

Specialized training is not required for personnel other than the team leaders.

TECHNICAL SUPPORT CENTER GROUP

The Technical Support Center Group is organized by the Emergency Director. It consists of various staff, administrative, and consulting personnel who can jointly provide recommendations to the Emergency Director intended to correct and improve emergency conditions.

REVIEW REQUIREMENTS:

1. Changes to this procedure proper shall be in accordance with A-4.
2. Additions, deletions, or changes of names or responsibilities on the appendices shall be PORC approved in accordance with A-4.
3. Corrections by addresses or phone numbers on the appendices may be handled by the secretarial staff without PORC review and approval; however, these appendices must be signed by the superintendent or alternate.

EMERGENCY PLAN IMPLEMENTING PROCEDURE

EP-209 APPENDIX P - STAFFING AUGMENTATION - 60 MINUTE CALL PROCEDURE

PURPOSE:

This appendix provides the method of contacting key staff personnel who will, in-turn, notify sufficient support personnel to meet the one-hour staffing requirement. It is used if an Emergency Plan Alert, Site Emergency, or General Emergency is declared.

1. The following steps shall be performed, in sequence, by the Shift Clerk or other assigned personnel.
2. Inform each person contacted of the event classification and that 60 minute staffing is required.
3. Call pager number if the phone is busy, if there is no answer, or if you know that the individual is "on-the-pager". Individuals may, of course, supply temporary numbers which should be called first.
4. Contact two staff senior engineers. R. S. Fleischmann is contacted by the Communicator and counts as one contact. Do not call R. S. Fleischmann if the Communicator has successfully reached him. Attempt to contact the "Duty" and "Interim Site Coord." engineers first. If you are unsuccessful, continue to call or page personnel on the list until you contact two individuals who can be at the site in less than 60 minutes.
