February 1, 1993

Secretary of the Commission  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Attention: Docketing and Service Branch

Dear Sir/Madam:

This is in regard to the U.S. Nuclear Regulatory Commission's (NRC) proposed amendment to its regulation which would add two storage cask designs to its list of those which utilities can use, under a general license and without site-specific approval, to store spent fuel at their nuclear power plant sites.

I would like to request a copy of the Certification of Compliance and Safety Evaluation Reports that the NRC staff have prepared for each of the two cask designs and a copy of the Environmental Assessment and Finding of No Significant Impact with respect to this proposed action.

Thank you for your attention to this request.

Sincerely,

DEPARTMENT OF NATURAL RESOURCES

Tom Lange  
Office of the Director
