Dear Mr. Chairman,

I would like to thank you and all U.S. NRC staff for thorough and fruitful efforts related to the organization of the execution of technical assistance to RF GAN. With deep satisfaction I considered the Memorandum signed by Mr. Taylor and Mr. Gutsalov in Washington D.C. last week. This document heralds a whole new stage of our mutual collaboration. In this connection I would like to confirm our readiness to commence the implementation of the agreed program. In particular, we are prepared to launch Teams 1.1-93 and 3.1-93 to the U.S.A., starting on 20 February, 1993.

I authorized my First Deputy Chairman Mr. Gutsalov to bear the responsibility for the executive management of the above program. I wish you wholeheartedly a very Merry Christmas. Let you and Mr. Belin enjoy prosperity and fulfillment of all your wishes in the New Year.

Very truly yours,

Yu. Vityayevsky
Chairman
Gosatomnadzor of Russia
