MAY 10 1985

Brinton C. Donaldson, D.O.  
609 East Jolly Road  
Lansing, MI 48910

Dear Dr. Donaldson:

We are in receipt of your letter dated March 27, 1983 (received April 1, 1985) informing us of your plans to discontinue your current practice. The following actions must be undertaken before we can terminate your NRC License Number 21-15508-01:

1. Remove any radioactive contamination in your facility to the extent practicable.
2. Properly dispose of byproduct material.
3. Submit a completed form NRC-314; and
4. Submit a radiation survey report to confirm the absence of radioactive materials or to establish the levels of residual radioactive contamination.

To assist you in this effort we are enclosing a copy of form NRC-314 and a listing of organizations which provide waste disposal services. You may wish to transfer certain radiopharmaceuticals and calibration sealed sources to other NRC licensees in your area who are authorized to receive the materials, e.g., local hospitals, medical centers, universities, etc.

The radiation survey report should consist of exposure rate measurements taken at one centimeter from surfaces and wipe test results average over an area of approximately 100 cm<sup>2</sup> per sample. Average radiation levels associated with fixed and removable contamination should not exceed those specified in the enclosed decontamination guide. Please submit the following information on your report:

- a. A diagram of your present facility with survey and wipe test results keyed to specific locations.
- b. The name of the person performing the survey.
- c. The date the survey was performed.
- d. The instrument(s) used for exposure rate measurements and for analysis of the wipe samples.
- e. Background readings.
- f. The date that the survey instrumentation was last calibrated.

2

Since your lease expired near the first of June, we expect to hear from you within 30 days of the receipt of this letter. Please reply in duplicate and reference Control No. 78643.

If you need further assistance or require clarification on any of the above, you can contact us on (312) 790-5625.

Sincerely,

Original Signed By
