Dr. William Havens  
American Physical Society  
335 East 45th Street  
New York, NY 10017

Dear Dr. Havens:

Enclosed please find the following documents in relation to the on-going Source Term Reassessment Study.

1. BMI-2104, Volume I, draft report containing analysis of the PWR SURRY plant published in July 1983.
2. BMI-2104, Volume II and Volume III containing analysis of the BWR Mark I and Mark III (PEACH BOTTOM and GRAND GULF plants, respectively) presented during the Peer Review on July 28-29, 1983. These two volumes, as well as the others, are scheduled to be published as BCL draft reports in October and November 1983.

In an attempt to provide you with all relevant information available to date, I am enclosing a copy of the BCL presentations made during the three previous Peer Review meetings along with their official transcripts. Relevant technical information can also be found in the attached papers, still in draft form, prepared by Mr. S. Beal (private consultant) and Dr. D. Powers of the Sandia National Laboratory.

As our work progresses, I will be sending out the remaining reports as well as other appropriate materials.
