License Nos. DPR-58 and DPR-74  
EMERGENCY RESPONSE DATA SYSTEM (ERDS)

U. S. Nuclear Regulatory Commission  
Document Control Desk  
Washington, D. C. 20555

Attn: J. R. Jolicoeur

February 10, 1993

Dear Mr. Jolicoeur:

Final testing of the Donald C. Cook Nuclear Plant Emergency Response Data System (ERDS) was successfully completed on January 22, 1993. Emergency plan procedure changes concerning the operation of the Cook Nuclear Plant ERDS have been prepared and will be in place by February 13, 1993.

Guidance on configuration control of the ERDS data point library is being prepared to assure that notification of changes will be given within the 30 day time period specified in 10 CFR 50 Appendix E, Section VI.

We are ready to perform quarterly tests of the ERDS in accordance with the test schedule provided. We also plan to test the system in our emergency preparedness drills and exercises. We will provide notification prior to these drills of our intent to exercise the ERDS.

If you have any questions, please contact R. B. Gridley at (614) 223-1959.

Sincerely,

A handwritten signature in cursive script, appearing to read "E. E. Fitzpatrick".

E. E. Fitzpatrick  
Vice President
