

February 10, 1993

Mr. P. S. Walsh, Chairman
B&W Owners Group Steering Committee
Suite 525
1700 Rockville Pike
Rockville, Maryland 20852

Dear Mr. Walsh:

SUBJECT: WATER LEVEL INSTRUMENT INACCURACIES DUE TO NON-CONDENSIBLE GASES

This letter is to acknowledge receipt of your letter dated January 29, 1993, that provided information related to water level inaccuracies due to non-condensable gases. The information you have provided will be incorporated into our generic review of potential errors in water level instruments used at Pressurized Water Reactors. We thank you for your prompt response to our request for information.

Sincerely,

ISI

James G. Partlow, Associate Director
for Projects
Office of Nuclear Reactor Regulation
