RE: License No. SUB-1010; Docket No. 40-8027
Report Pursuant to Order Modifying License,
dated March 13, 1992

Dear Mr. Milhoan:

Pursuant to the requirements of the March 13, 1992 Order Modifying License, attached is the Sequoyah Fuels Corporation (SFC) written report of incidents or events specified by the Order. This report includes events identified since SFC's report of February 5, 1993. This report is consistent with the April 3, 1992 Confirmatory Order which altered the March 13, 1992 Order Modifying License.

If there are any questions regarding this report, please contact me at 918/489-3207.

Sincerely,

John S. Dietrich
Vice President
Technical Support

Reportable Events Pursuant to
March 13, 1992 Order Modifying License
Report No. OML 93-06

Period Ending February 12, 1993

- A. Failure to follow procedures or other requirements where there are indications that the cause was a deliberate failure to meet requirements. A deliberate failure is a failure caused by deliberate misconduct as defined in 10 CFR 40.10(c).

None for this report.

- B. Spills or other unusual occurrences involving the spread of contamination in and around the SFC's facility, equipment, or site, subject to 10 CFR 40.36(f)(1).

None for this report.

- C. Any occurrence which leads to 1) offsite release or contamination in unrestricted areas in excess of SFC's administrative limits; 2) any contamination in restricted areas that requires activities in an area to be suspended for more than 8 hours pending decontamination; or 3) any personnel contamination in excess of SFC's administrative limits which within one hour of detection is not reduced to within limits.

Minor contamination was identified in a desk drawer in an office in the control room. The survey results were:

a)	7,000 dpm/100cm ²	Beta smearable
b)	10,000 dpm/100cm ²	Beta direct
c)	5,000 dpm/100cm ²	Alpha smearable

The desk drawer was removed from the unrestricted area and placed in the restricted area awaiting decontamination. The other desk drawers and the desk were surveyed but no other contamination was found.

- D. Employee concerns or allegations that any of the above failures may have occurred unless it is determined within the above five working days that the concern or allegation is not valid.

None for this report.

- E. Any other matter that the president, SFC, believes rises to a regulatory or safety concern that warrants NRC notification.

None for this report.
