Re: Grant Medical Center - License # 34-03424-03

Dear Sir:

This is in response to NRC Bulletin 92-02: "Safety Concerns Relating to "End of Life" of Aging Theratronics Teletherapy Units". Grant Medical Center does not possess any of the Theratronics teletherapy models listed on page 2 of the bulletin. However, Grant does own Picker C-9 teletherapy CO-60 machine, and based on the make (Picker) of the machine, we would be exempt from the additional reporting requirements of this bulletin.

Sincerely,

Balbir S. Reehal
