Re: NR-330-D-102-G
Materials Licenses
20-27938-03G
20-27938-02

Dear Mr. Lubinski,

We are at present licensed to distribute the HNU-Nordion Electron Capture Detector (ECD). Our Registration and Safety Evaluation of the device was based upon the design and experience of our Finnish subsidiary HNU-Nordion, Ltd, Oy; Helsinki; Finland.

We would like to know if any amendment of the registration is required to import and distribute ECD's manufactured and assembled in Finland to the same specifications, including use of the DuPont Ni-63 foils.

Sincerely,

A.W. Berger, RSO
