

March 1, 1985.

50-352/353

Dear Friends:-

The Philadelphia Electric Company, which for years has given the finest service to this whole area, has consented to come with Suckmont to build a pump to supply their water needs. As we co-operate with them, they will save the tax-payers millions of dollars in construction costs, plus giving us the benefit of their expertise and skills.

The tax-payers of Suckmont ought to thank God for our utilities and the help they are to us.

PEOPLE FOR THE UMI.
