Dear Dr. Jones,

Thank you so much for your assistance in the consultants meeting held here from 26-30 August 1996 to prepare a draft guidance on "Source and Environmental Monitoring for Radiation Protection of the Public".

The final draft was completed on 30 August by Dr. Chrishnamony and forwarded to you. A tentative schedule hereafter is as follows: The draft will be distributed to the relevant staff in the Agency requesting their comments. After editorial corrections these comments will be sent to the consultants for both checking and additional comments sometime during this month. The final draft will then be completed in October 1996 for the Advisory Group Meeting and sent to the participants for the AGM.

As you know the AGM will be held at the Agency's Headquarters from 2-6 December 1996 where participants from approximately ten Member States will be asked for their comments. We would be very pleased if you would chair the meeting with the co-operation of Dr. S. Krishnamony from the BARC.

Please find enclosed the IAEA publications, Safety Fundamentals, "Radiation Protection and the Safety of Radiation Sources" and Safety Guide No. 109 "Intervention Criteria in a Nuclear or Radiation Emergency" as requested.

I would value your assistance on this draft guidance, at least until the publication of this Guide. Thank you again for your efficient assistance and I look forward to further collaboration with you.

Should you have any further queries please do not hesitate to contact me preferably by e-mail.

Yours sincerely,

Yoshikazu Inoue
