Inspection Summary

Inspection Conducted April 8-12, 1985 (Report 50-498/85-05; 50-499/85-05)

Areas Inspected: Routine, announced inspection of preoperational security program development involving personnel fitness for duty, handling of reported quality concerns, security organization development, and the coordination of physical security systems. The inspection involved 36 hours of direct inspection by one NRC inspector.

Results: Within the four areas inspected, no violations or deviations were identified.
