SUBJECT: COOPER NUCLEAR STATION EMERGENCY PLAN

We have received your letter dated February 1, 1993, in response to our letter dated January 5, 1993, requesting additional information concerning Revision 18 to the Cooper Nuclear Station Emergency Plan. This revision was submitted to NRC by your letters dated October 7 and December 17, 1992.

The additional information provided in your February 1 letter concerned the equipment, capabilities, and testing of the functional suitability of your alternate operational support center. We have reviewed the additional information in connection with the changes made to the emergency plan contained in Revision 18 and have determined that they are acceptable and do not decrease the effectiveness of your emergency planning at the Cooper Nuclear Station.

Should you have any questions concerning this letter, please contact Dr. D. Blair Spitzberg at (817) 860-8191.

Sincerely,

*Dwight A. Chamberlain*  
for L. J. Callan, Director  
Division of Radiation Safety  
and Safeguards
