Dear Dr. Goren:

You wanted to compare the aerosol behavior predictions from the computer codes. On 30 August 1984, I sent you a summary of a comparison of codes. Unfortunately, the summary was unacceptable to you.

Enclosed is a summary which I believe should be of use. I made an effort to write a concise report; the numerous graphs and tables seem to be necessary.

If this summary is inadequate, then please do not hesitate to call me. I will make every effort to rectify the problem.

Sincerely,

*Christopher F. Ryder*
