Dear Mr. Taylor:

We acknowledge receipt of your order dated May 24, 1985 and the News Release dated May 29, 1985.

Pursuant to the telephone communication of your Mr. Jim Allen on Friday, May 24, 1985, we immediately ceased our radiographic activities at Cleveland and removed Mr. R.D. Biaselle from the position of Radiation Safety Officer.

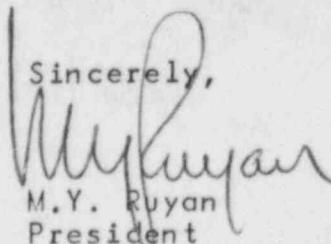

On May 28, 1985 (the first work day after notification) our Mr. W.H. Carnes was at Cleveland to take over RSO responsibilities and to so advise all personnel in NRC licensed activities (License Nos. 37-00276-25 and 37-00276-27). There shall be no radiography performed at Cleveland until a submittal is made in conformity to your order.

Attached please find a copy of our letter in accordance with Section IV C of your order. We will confirm when all acknowledgements are executed and returned.

We hereby consent to your order and shall not request a hearing.

RE : NRC ORDER DATED 5-24-85
DOCKET NO. 030-05985
LICENSE NO. 37-00276-25

Attached are two documents from the NRC which are self explanatory. This matter was discussed in-depth at our Managers Meeting. You were further advised in writing by W.H. Levelius on March 5, 1985 on the outcome of our meeting at King of Prussia, re-emphasizing the seriousness of the violations. NRC has been conducting an in-depth investigation which has revealed additional irregularities which were not revealed previously. This has resulted in their subject order.

Once again I urge you to strictly adhere to the NRC requirements and in your contacts with NRC personnel exercise complete candor. Needless to say we can ill afford a repetition of such.

I ask that you acknowledge the receipt of this memo by signing and returning the attached copy at your earliest convenience.
