Dear Mr. Mendonca:

The Armed Forces Radiobiology Research Institute (AFRRI) will conduct an annual emergency drill on 4 November 1996. The drill will consist of a simulated incident requiring activation of AFRRI's emergency response team and possible evacuation of the building.

This drill will be broad in scope and will involve National Naval Medical Center and Montgomery County as well as internal AFRRI emergency response assets. We invite you to observe the drill and attendant functions. We will hold a meeting for all controllers and evaluators at 1400 on 1 November 1996 in the AFRRI conference room.

If you have any questions, please call Captain Oscar Lessard, at (301) 295-1291/1290 or the Reactor Facility Director, Mr. Mark Moore, at (301) 295-1352. Thank you for your interest in this important exercise.
