Re: NRC Liscense
24-11263-01

Dear Mr. McCann:

Enclosed you will find a certificate of disposition of byproduct material from Varian Instruments. We have returned for disposal 4 each Scandium Tritide Foil Sources not to exceed 1 curie per cell.

It is requested that our present NRC Liscense be amended to show the disposal of the Tritide Foils and that they are no longer part of our accountable byproduct material on our liscense. A copy of our license is also enclosed for your information.

If you need any additional information, please let me know.
Thank you for your consideration and assistance in this matter.

Sincerely,

Wayne E. Black
