# BWR OWNERS' GROUP

Cynthia L. Tully, Chairperson  
(205) 477-7357

c/o Southern Nuclear Operating Company • P.O. Box 1295, Bin 8052 • Birmingham, AL 35201

BWROG-93025-136

February 12, 1993

U. S. Nuclear Regulatory Commission  
Washington, DC 20555

Attention: A. C. Thadani, Director  
Division of Systems Safety & Analysis

Subject: PROPRIETARY INFORMATION TO BE COVERED IN BWR OWNERS' GROUP MEETING WITH NRC

Reference: Letter (BWROG-93020), C.L. Tully (BWROG) to A.C. Thadani (NRC), same subject, dated February 9, 1993

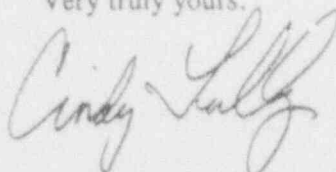

As a result of discussions with the NRC regarding the proprietary information bases stated in the reference letter and our desire to interact constructively with the NRC, the BWR Owners' Group (BWROG) will modify the material to be covered in the upcoming meeting (February 17, 1993) to make it non-proprietary.

The BWROG will revise the detail and depth of the information to be covered during the NRC review and tour. We will provide information about the present test program content and progress to demonstrate our understanding of the phenomenon in both a qualitative and quantitative sense. The extent of the tour will be limited as necessary to assure the safety of personnel in this industrial testing facility.

We hope that these revised circumstances are satisfactory to you.

Please call me or George Beck (PECo) at (215) 640-6450 if you have any questions about any of the above information.

Very truly yours,

Cynthia L. Tully, Chairperson  
BWR Owners' Group
