KEY TO "REFERENCE SAR SECTION STATUS" COLUMN:

Category I

Those sections which are complete and for which no additional information is to be provided for the PDA application.

Category II

Those sections which are complete insofar as providing material relevant to this system module but for which additional information will be provided in support of subsequent modules.

Category III

Those sections for which information on interfacing systems will be provided at a later date.

NA

Those sections for which categorization is not applicable. Only the section titles are included for clarity.
