IN RESPONSE REFER
TO FOIA-96-A-11
(FOIA-96-240)

Dear Dr. Reytblatt:

I am responding to your letter of August 23, 1996, to Chairman Jackson, in which you appealed the response from Russell A. Powell dated August 15, 1996, to your Freedom of Information Act (FOIA) request. In your request you asked for copies of the Structural Integrity Test Report for the Three Mile Island nuclear power plant and any related documents.

Acting on your appeal, the U.S. Nuclear Regulatory Commission (NRC) undertook another search of agency records. The NRC staff searched for the subject records in both the NRC Region I office and the NRC Public Document Room located in Washington, DC. No additional records were located.

The NRC Region I office and Mr. Charles Mullins of the NRC Office of the General Counsel stated that they have never confirmed the existence of the records you are seeking, nor did they ever refuse to release them to you as you stated in your letter.

This is a final agency decision on your appeal. As set forth in the FOIA (5 U.S.C. 552(a)(4)(B)), judicial review of this decision is available in a district court of the United States in the district in which you reside or have your principal place of business, or in the District of Columbia.

Sincerely,

Hugh L. Thompson, Jr.
Deputy Executive Director for
Nuclear Material Safety, Safeguards
and Operations Support
