Dear Ms. Fines:

I am responding to your letter to Chairman Selin dated February 1, 1993. In your letter, you indicated your concern regarding "the inadequacy of the NRC's response to the questions of degradation at Vermont Yankee." In addition, you stated a need for "a thorough, systematic and public investigation of the safety components" at Vermont Yankee, and a "need to know more about [the NRC's] criteria."

Mr. Michael Daley, of the New England Coalition on Nuclear Pollution, raised similar concerns originally in a letter to Chairman Selin dated December 16, 1992. He sent a second letter to Chairman Selin on February 9, 1993, raising concerns similar to yours though in greater detail. A response to Mr. Daley's letter is in preparation. After its issuance, a copy will be provided to you. I trust that it will address your concerns adequately.

If you have any questions on this matter, please contact Mr. Daniel Dorman of my staff at (301) 594-1429.
