Dear Dr. Mallett:

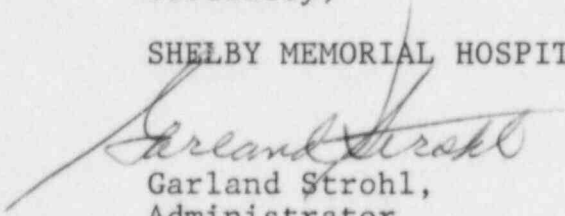

As previously indicated, our nuclear medicine service is provided by a mobile unit, Nuclear Diagnostics, Inc., which is now separately licensed.

Enclosed is appropriate data and information to enable close-out of our present license. As part of this close-out our Cesium 137 is transferred to Nuclear Diagnostics, Inc., license No. 12-24416-01.

We trust this will not reflect unfavorably upon us should circumstances later require us to seek relicensure.

Cordially,

SHELBY MEMORIAL HOSPITAL
