To Whom It May Concern:

Please accept for filing this copy of New England Coalition on Nuclear Pollution's Comments In Opposition to Proposed Finding of No Significant Hazards Consideration, regarding a proposed operating license amendment for the Vermont Yankee Nuclear Power Station. The comments were completed late in the afternoon on the due date, February 22, 1993, but were not finished in time to be hand-delivered to the NRC's offices by close of business. Therefore the original comments, along with NECNP's request for a hearing on the proposed license amendment, were placed in the first-class mail at 5 p.m. that day. In addition, this copy of NECNP's comments is being delivered to you by hand this morning.

Thank you for your consideration. Please call me immediately if there is any problem in granting this request.

Sincerely,

Diane Curran
Counsel to NECNP
