Dear Mr. Mallett:

We request that you terminate by-product materials license No. 12-24317-01. All sealed sources in our possession will be transferred to Nuclear Diagnostics, Inc., NRC by-product materials license

A close-out survey will be performed of the areas where by-product material was used. Survey information will contain:

- (1) Name of surveyor.
- (2) Date of survey.
- (3) Instruments used and calibration dates.
- (4) Diagram of area survey.
- (5) Survey results.

Contamination limits will be those contained in Regulatory Guide 10.8, dated October 1980, Revision 1, Appendix I. A copy will be forwarded to you upon completion.

We wish to retain licensing capability to permit use of agents to permit T-3 and T-4 testing in our laboratory. If a revision or new license form is required, please notify us. These diagnostic laboratory tests will begin immediately.

Thank you for your cooperation in this matter. Should you require further information please contact us.
