

Docket No. 030-08935

JUN 22 1978

Isomedix, Inc.
ATTN: Mr. G. Dietz
President
80 South Jefferson Road
Whippany, New Jersey 07981

Gentlemen:

Subject: Inspection 030-08985/78-02

This refers to the inspection conducted by Mr. E. Epstein of this office on June 8, 1978, at your irradiation facility in Parsippany, New Jersey, of activities authorized by NRC License No. 29-15364-01 and to the discussions of our findings held by Mr. Epstein with yourself at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

In addition, our inspector took wipe samples of floors and equipment located in your facility, took water samples from your liquid waste treatment system, and took water samples from your irradiation pool. These samples were analyzed in our Regional Office Laboratory. The basic purpose of these independent measurements was to verify your capability for identifying and evaluating radioactive contaminants in your facility and in effluents from your facility. The results of our analysis indicate compliance with the applicable levels in Part 20 and were in agreement with your analysis.

Our inspector also verified the steps you have taken to correct the item of noncompliance brought to your attention in a letter dated February 22, 1978. We have no further questions regarding your action at this time.

Within the scope of this inspection, no items of noncompliance were observed.
