License No. 29-15364-01

03008985

Gentlemen:

This refers to the inspection conducted by Mr. Epstein of this office on December 12 and 13, 1974 of activities authorized by AEC License No. 29-15364-01 and to the discussions of our findings held by Mr. Epstein with Mr. Perrin of your staff at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Our inspector also reverified the corrective actions that you had taken, prior to our July 8 and 9, 1974 inspection, concerning the items of noncompliance noted during our investigation of June 14, 18 and 28, 1974. In addition, the statements and representations made in your letter of October 8, 1974, in reply to Dr. Knuth's letter of September 23, 1974, were confirmed. We have no further questions regarding these matters.

Within the scope of this inspection, no violations or safety items were observed.

In accordance with Section 2.790 of the AEC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room.

No reply to this letter is required; however, should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Paul R. Nelson, Chief
Radiological & Environmental
Protection Branch
