

October 16, 1996

Mr. Frank Leder  
Sächsisches Staatsministerium  
für Umwelt und Landesentwicklung  
Ostra-Allee 23, 01067 Dresden  
PSF 120121, 01002 Dresden  
Germany

SUBJECT:

Dear Mr. Leder:

I hope our discussions on September 30, 1996 were helpful to you. As promised, enclosed are the following documents relevant to uranium recovery in the United States:

1. The current U.S. Nuclear Regulatory Commission organization chart.
2. NRC regulations for uranium mill operation and reclamation.
3. The NRC Standard Review Plan for Department of Energy remedial action at old tailings sites. Much of the review plan is also applicable to review of reclamation plans at licensed uranium mill sites.
4. Copies of the license for a conventional mill undergoing reclamation (Atlas) and an operating *in situ* uranium mill (COGEMA).
5. A report on decommissioning uranium facilities that focuses on costs but contains other information.

I enjoyed our meeting. If you have any questions, please call me at (301) 415-6629.

Sincerely,  
Original Signed By:]

Myron Fliegel, Senior Project Manager
