

JUL 23 1985

Docket No. 50-374

Commonwealth Edison Company  
ATTN: Mr. Cordell Reed  
Vice President  
Post Office Box 767  
Chicago, IL 60690

Gentlemen:

This refers to the special safety inspection conducted by Messrs. S. G. DuPont and H. A. Walker of this office on June 24-28 and July 1-2, 1985, of activities at LaSalle Country Station, Unit 2 authorized by Operating License No. NPF-18 and to the discussion of our findings with Mr. R. D. Bishop at the conclusion of the inspection.

This inspection focused on the implementation of your actions required by NRC Confirmatory Action Letter CAL-RIII-85-07 and the enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel. The inspection disclosed that the actions required by the Confirmatory Action Letter Items 1-5 had been satisfactorily implemented.

No violations of NRC requirements were identified during the course of this inspection. However, several weaknesses were identified in your modification program as discussed in Paragraph 3 of the enclosed inspection report. You are requested to provide a written response to this office within fifteen days addressing each of these weaknesses.
