Toledo, OH 43606

Re: Letter dated September 29, 1983 for renewal of NRC License No. SNM-915

Gentlemen:

In order to complete your renewal request it will be necessary for you to submit the following information:

1. The information outlined in Item a. of Section 70.22, 10 CFR Part 70 (enclosed).
2. The name of the person who will be responsible for coordinating the use of your Special Nuclear Material and for insuring compliance with the terms and conditions of your NRC License.
3. Your means of preventing unauthorized use or removal of the Special Nuclear Material from your use and storage area.
4. A description of your procedures for leak testing the sources including analysis of the leak test samples.
5. Procedures for calibrating the instrument used for analyzing leak test samples.
6. If the sources will be handled by students, a copy of the safety precautions used in the handling of the sources.
7. Procedures for handling and storing targets activated by neutron exposure.
8. Procedures to be followed in the event of fire or some other emergency that may involve damage or loss of the Pu-Be source. Include the names and telephone numbers of individuals within the college who should be notified and who will, in turn, notify the NRC and if applicable, the local police and State personnel. Please also inform us of your means for insuring that appropriate personnel are aware of the procedures to be followed.

Should you have any questions regarding the above, please contact us at (312) 790-5625. Correspondence in response to this letter should be submitted in duplicate and refer to Control Number 22919.
