ATTN: Dr. Bruce Mallett,

We have built a new office in the Industrial Park, Lot # 24 of Fairfield, Illinois. At this time we need to amend our License so that we can move our Radioactive Material to our new facility.

Enclosed is a picture and diagram of our new building and Radioactive Storage Igloo. (See Figure 1)

After receiving consent to move the Radioactive Material to our new facility, I would like to follow up by sending your office a survey of our present storage igloo located at North West Tenth St., Fairfield, Illinois. This survey will show if there is any contamination. If there should be, I will immediately contact your office for further advice.

Contamination is unlikely since we have had no spills or accidents and all sealed sources are checked every six months and have not shown any sign of leakage.

Sincerely,

Danny A. Young
Danny A. Young
Radiation Protective Officer
