Gentlemen:

This refers to your letter dated January 21, 1983, for an amendment to Materials License 12-10988-01.

We received your check for \$40. Your application, however, is subject to an application fee of \$110 as specified in fee Category II and Footnote 1(d) of Section 170.31, 10 CFR 170, copy enclosed. Footnote 1(d) states in part that an application for amendment to a materials license that would place the license in a higher fee category or add a new category shall be accompanied by the prescribed application fee for the new category. Your request for the addition of Plutonium 238 sealed sources will increase the scope of your licensed program to include fee Category II. Payment of the additional \$70 should be made to the U.S. Nuclear Regulatory Commission and mailed to my attention. When submitting the additional fee, please refer to CONTROL NUMBER 07373.

Your application will be sent to the Licensing staff for processing upon receipt of the additional fee. If you have any questions concerning this matter, please let us know.

Sincerely,

Original Signed By
Glenda Jackson
