NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

JUN 06 1985

Ms. Nina Bell
Assistant Director
Nuclear Information and Resource Service
1346 Connecticut Avenue, NW, 4th Floor
Washington, DC 20036

IN RESPONSE REFER
TO FOIA-85-362

Dear Ms. Bell:

This is in partial response to your letter dated May 8, 1985, in which you requested, pursuant to the Freedom of Information Act (FOIA), all records related to the desirability of voluntary or required redress of nuclear plant sites where work was undertaken but construction is no longer contemplated, including the Clinch River Breeder Reactor (CRBR), and NRC's legal analysis of the need for site redress.

Copies of the documents listed on the enclosed Appendix A are being placed in the NRC Public Document Room (PDR).

The NRC has not completed its search and review of additional documents subject to your request. We will respond as soon as those efforts are completed.

Sincerely,

J. M. Felton, Director
Division of Rules and Records
Office of Administration

Enclosure: As stated

FREEDOM OF INFORMATION
ACT REQUEST

FOIA-85-362

rec'd 5/16/85

FREEDOM OF INFORMATION ACT REQUEST

Dear Mr. Felton:

Pursuant to the Freedom of Information Act, 5 U.S.C. 522, as amended, the Nuclear Information and Resource Service requests the following documents regarding the redress of sites where nuclear plant construction has begun. Please consider "documents" to include reports, studies, test results, correspondence, memoranda, meeting notes, meeting minutes, working papers, graphs, charts, diagrams, notes and summaries of conversations and interviews, computer records, and any other forms of written communication, including internal NRC Staff memoranda. The documents are specifically requested from, but not limited to, the Office of the Executive Legal Director (OELD) and Office of Nuclear Reactor Regulation (NRR).

Pursuant to this request, please provide all documents prepared or utilized by, in the possession of, or routed through the NRC related to:

1. The desirability of voluntary or required redress of nuclear power plant sites where exploratory, excavation or construction work has taken place and construction is no longer contemplated, including the Clinch River Breeder Reactor, except those documents already part of NRC proceedings;
2. NRC's legal analysis of the need for site redress of such sites both with and without a current construction permit and with and without a Limited Work Authorization having been issued.

In our opinion, it is appropriate in this case for you to waive search charges, pursuant to 5 U.S.C. 552(a)(4)(A) "because furnishing the information can be considered as primarily benefiting the general public." The Nuclear Information and Resource Service is a non-profit organization serving local organizations concerned about nuclear power and providing information to the general public. Information required by 10 CFR 9.14a was provided by letter dated August 3, 1984.
