UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

JUN 11 1985

Mrs. G. Herskowitz
28063 South Woodland Road
Pepper Pike, OH 44124

IN RESPONSE REFER
TO FOIA-85-382

Dear Mrs. Herskowitz:

This is in response to your letter dated May 20, 1985, in which you requested, pursuant to the Freedom of Information Act, records regarding the location of and health detriments concerning uranium mining north of Kanab, Utah, and subsequent transportation of the uranium through Kanab into specific areas in Arizona.

The staff has informed me that there are no records subject to your request. However, they have provided the following information to me.

Ore and the transportation thereof is not regulated by the Nuclear Regulatory Commission. Only when the crushing or processing of this ore begins is a license required. The mining of uranium and thorium is regulated by the individual states. Consequently, any records related to your request may be obtained by writing directly to the States of Arizona and Utah. We have enclosed a copy of the list of Agreement States to assist you. The list identifies each individual to be contacted, telephone number, and complete address.

Sincerely,

A handwritten signature in dark ink, appearing to read "J. M. Felton", written over the typed name and title.

J. M. Felton, Director
Division of Rules and Records
Office of Administration

Enclosure: As stated
