SUBJECT: RELEASE FOR REPRINTING OF COPYRIGHTED MATERIAL

Dear Mr. Braverman:

This letter is in response to your letter of July 24, 1996 requesting permission to include figures originally provided by Westinghouse in a NUREG on modular construction.

We grant the NRC permission to use the material identified in the attached list in a NUREG entitled Assessment of Modular Construction for Safety Related Structures in Advanced Nuclear Power Plant Designs. This NUREG is being prepared by Brookhaven National Laboratory.

Some of the design information included in the material to be included in the NUREG is no longer part of the AP600 design. We understand that it is being included in the NUREG as an example of a type of module considered.

If you have any additional questions, please contact Donald A. Lindgren on (412) 374-4856.

Brian A. McIntyre, Manager
Advanced Plant Safety and Licensing

Westinghouse Figures and Tables For Use in NUREG Report

<u>Figure No.</u>	<u>Reference</u>
1*, 2**	"Structural Modules, Procedures for Design," Westinghouse Meeting Handout at NRC/Westinghouse Meeting, 2/10/93.
3, 4, 5	"Structural Modules, Design Example, Refueling Cavity-West Wall," Westinghouse Meeting Handout at NRC/Westinghouse Meeting, 2/10/93.
6, 7*	AP600 Plant Description Document, WCAP-13202, January 1992.
8*, 9*, 10*, 11*, 12**, 13**, 14**, 15*, 16*, 17*, 18*, 19*, 20*, 21*, 22*	Westinghouse Electric Corporation, "Simplified Passive Advanced Light Water Reactor Program, AP600 Standard Safety Analysis Report," prepared for U.S. Department of Energy, June 26, 1992 and Subsequent Revisions through June 19, 1996.

Table No.

1*, 2*	Same as Figure numbers 8 through 22 above.
--------	--

* This figure/table has already been presented in a publicly available document.

** A similar figure has already been presented in a publicly available document.
