Docket No.: 50-358

30-11989

70-2838

Mr. W. H. Dickhoner, President  
Cincinnati Gas and Electric Company  
Post Office Box 960  
Cincinnati, Ohio 45201

Dear Mr. Dickhoner:

Subject: Revocation of Construction Permit No. CPPR-88 - Wm. H. Zimmer  
Nuclear Power Station, Unit 1

Your letter dated October 18, 1984, requested that Construction Permit No. CPPR-88 for the Wm. H. Zimmer Nuclear Power Station, Unit 1 be terminated because you do not plan to complete the Station as a nuclear fuel utilization facility.

An Order Revoking Construction Permit No. CPPR-88 for the Zimmer Nuclear Power Station, Unit 1, has been issued. This action terminates the Construction Permit, reflecting the fact that construction of the utilization facility has ceased and the facility has been disabled by removing control rod drives from the reactor and severing main steam lines and main feedwater lines so that it cannot be operated as a nuclear fuel utilization facility. All nuclear fuel has been removed from the site and Special Nuclear Material License No. SNM-2823 has been terminated. In addition, Byproduct Material License No. 34-07251-04 has been terminated.

The NRC will retain regulatory records for the Zimmer facility in its Local Public Document Room and the Public Document Room in Washington, D. C. for one year after the date of issuance of the Order. It is requested that you keep records pertaining to the Zimmer facility for a similar period of time.

MAY 16 1985

Mr. W. H. Dickhoner, President

- 2 -

Enclosed for your use is a copy of the Order and a copy of a Notice of Environmental Assessment and Finding of No Significant Impact which was published in the Federal Register on April 16, 1985 (50 FR 15018). The Order was effective the date of issuance.

Sincerely,

~~Original Signed by~~ia/for
